		Marine 12		156.6000 W		156.6000 W		A	Soo Traffic vessel traffic control
		Marine 14		156.7000 W		156.7000 W		A	USACE Lockmaster
		Marine 16		156.8000 W		156.8000 W		A	Marine emergency channel

The convention calls for frequency lists to show four digits after the decimal place, followed by either an “N” or a “W”, depending on whether the frequency is narrow or wide band. Mode refers to either “A” or “D” indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.
